

FERRARI 296 GTB

Buying: **new** Buyer's state: **NSW** Prepared: **17 October 2026** By: **Koome, Road News**

SAMPLE BRIEF

1. THE NUMBER

\$595,815

List price plus NSW stamp duty. Before rego, CTP, dealer delivery and options, which the dealer must itemise.

2. WHERE THE MONEY GOES

ITEM	AMOUNT
List price before on-road costs	\$568,300
of which GST	about \$41,400
of which luxury car tax	about \$112,500
NSW stamp duty, paid on top	\$27,515
Price plus duty	\$595,815

Luxury car tax is already inside the list price. It's 33% of the amount above the 2026-27 threshold of \$80,809, worked out on the price without GST. The 296 GTB doesn't qualify for the higher fuel-efficient threshold.

3. STAMP DUTY IN EVERY STATE

STATE	DUTY	PRICE PLUS DUTY
NSW	\$27,515	\$595,815
Victoria	\$51,156	\$619,456
Queensland (hybrid rate)	\$22,732	\$591,032

Western Australia	\$36,940	\$605,240
South Australia	\$22,672	\$590,972
Tasmania	\$22,732	\$591,032
ACT (estimated emissions band)	about \$42,200	about \$610,500
Northern Territory	\$17,049	\$585,349

Duty is worked out on the list price. Options and delivery charges can raise the dutiable value. Rates checked with each state revenue office in October 2026.

4. OWNING IT

- **Warranty:** Ferrari's standard warranty is three years, extendable a year or two at a time up to the car's eighth year.
- **Servicing:** Ferrari's seven-year Genuine Maintenance programme covers scheduled servicing, and Ferrari lists the 296 GTB as included. Services fall every 20,000 km or each year.
- **Battery:** it's a plug-in hybrid. Ask what the high-voltage battery warranty is in Australia, and for how many years and kilometres.

Couldn't confirm: Ferrari Australia doesn't publish these terms locally. The warranty and maintenance terms above come from Ferrari's global pages. Get the Australian terms in writing from the dealer before you sign.

5. QUESTIONS TO ASK THE DEALER

1. Give me a written drive-away price, with rego, CTP, stamp duty and dealer delivery as separate lines.
2. What's the wait for an allocation, and is the price locked when I order or when the car arrives?
3. What do the options on my spec cost? Options add to the price, and above the threshold they also add luxury car tax.
4. What warranty and maintenance terms apply in Australia, including the battery?
5. What are the extended warranty prices for years four to eight?

6. WHAT IT COMPARES WITH

Price plus NSW duty for the cars a 296 GTB buyer usually shortlists. List prices before on-road costs, checked October 2026:

CAR	LIST PRICE	PLUS NSW DUTY
Ferrari 296 GTB	\$568,300	\$595,815
Ferrari Purosangue	\$728,000	\$763,500
Lamborghini Revuelto	\$987,000	\$1,035,450

In a paid brief, this section lists the two or three cars you're actually weighing up. For a used car, it also lists recent Australian sales of the same model, with dates.

7. SOURCES AND DATES

- Price: CarExpert and CarsGuide 2026 listings, checked 17 October 2026.
- Luxury car tax: Australian Taxation Office, 2026-27 thresholds, checked 15 October 2026.
- Stamp duty: Revenue NSW, State Revenue Office Victoria, Queensland Government, WA Department of Treasury and Finance, RevenueSA, State Revenue Office Tasmania, ACT Revenue Office and the NT Territory Revenue Office, checked October 2026.
- Warranty and maintenance: Ferrari global warranty and Genuine Maintenance pages, checked 17 October 2026.

This brief is general information from public sources, correct on the date shown. It isn't financial, legal or tax advice, and it isn't a valuation. Prices and taxes change, so confirm every figure with the dealer and the relevant government office before you commit.
